

The series Oorlogskranten 1914-1918 presented in Fédra

On 14 January, the information bulletin of the federal civil servants *Fédra* dedicated a long article to the series *Oorlogskranten 1914-1918*, published in 52 weekly issues from 23 December onwards ([click here](#)). It is an initiative by the London editor Albert Limited, who looked to Cegesoma for expert advice to carry out the project.

The editor-in-chief of the publication, the young historian Hans Boers, has moreover been a member of the team of historians of Cegesoma for many years. He outlines the project in *Fédra* and announces the probable publication of a French-language edition.
