Specific provisions regarding requests for reproduction of photographic archive:

The estimate which is sent after reception of the order form specifies for each photograph its status with regard to the copyright.

If the CegeSoma does not hold the copyright, the following provisions will be applied:

- **If the claimants are known and an agreement has been made with CegeSoma**, a copyright may be requested as well as a usage fee. This fee will vary according to the provisions of the agreement. In some cases, the applicant will be requested to take the necessary actions towards the persons concerned and to provide written proof to CegeSoma before provision of the photographs.
- **If the claimants or the authors are known but no agreement has been made with CegeSoma**, it has the right to refuse reproduction of the photographs.
- **If the claimants are not known or the provenance of the photograph is completely unknown**, the mention « rights reserved » will be joined to the reproduction and the following sentence will be inserted in the beginning or the end of the publication : « The author of this publication has, in spite of all actions taken, not been able to trace the origin of some of the images. Should the rightful claimants recognize themselves in these photographs they can contact + *contact information of the publisher* ». In this case, the editor/producer will be the sole responsible of the publication of the photographs.
